(Standard Single Prime Contract Set)

**NOTICE TO BIDDERS**

The Board of Trustees of the University of Illinois, hereinafter referred to as the "Owner," furnishes the following information and special instruction to prospective bidders desiring to submit bids for the work on the following project:

**1 PROJECT INFORMATION**

1.1 Project Name: Armory Arch Stucco & Curtainwall Replacement

1.2 Project Number: U23080R1

1.3 Project Description.

The Armory has two barrel-ended facades at its east and west ends, enclosed with stucco arches and wooden window walls. These systems are over 100 years old and require replacement. The arches consist of several stucco systems, including those at the face, soffit, piers, and interior areas, which shall be repaired and replaced in-kind as shown. The existing window wall system shall be replaced with a compatible thermally broken aluminum window system that matches the existing historic profiles of the original system. The majority of work must be undertaken from the exterior to minimize impact on interior mezzanine-level MEP systems and scaffolding impacts to adjacent spaces. The scaffolding diagram is proposed to limit work on the existing low capacity perimeter roofs and disruption to new roofing at the east side. Refer to Division 01 of the technical specifications for a complete, detailed breakdown of the base bids and alternates for this project. This project includes a Project Labor Agreement that will be executed between the lowest responsible/responsive bidder and the East Central Illinois Building and Construction Trades Council. A copy of the Project Labor Agreement is included at the end of Section 00 90 00.

Refer to Division 01 of the technical specifications for a complete, detailed breakdown of the base bids and alternates for this project.

1.4 Project Location:

505 E Armory Ave, Champaign, IL 61820

1.5 Contract Documents Prepared By:

- 2.9 Liquidated Damages for Delay.
- 2.9.A For Delay in Substantial Completion. The parties acknowledge that the Contractor's failure to achieve Substantial Completion of the Work within the Contract Time provided by the Contract Documents will cause the Owner to incur significant actual damages of types and in amounts which are impossible or extremely difficult to calculate and ascertain with certainty and accuracy. Accordingly, in lieu of actual damages for delay in Substantial Completion that is not caused solely by the Owner (hereinafter "Contractor Delay"), the Contractor agrees that liquidated damages will be assessed and recovered by the Owner against Contractor in the event of Contractor Delay and without the Owner being required to present any evidence of the amount or character of actual damages sustained by reason thereof. To the best of their ability and based on information

available to them as of the time of entering into this Contract, Contractor and Owner have estimated that the fairest and best approximation of actual damages that will be incurred for each day of Contractor Delay beyond the Contract Time is One Thousand, Eight Hundred, Seventy-Five (\$1,875.00 USD) per calendar day. Therefore, in lieu of actual damages, Contractor shall pay Owner liquidated damages in the aforesaid amount per day for each calendar day of Contractor Delay. Such liquidated damages are intended to represent estimated actual damages and are not intended as a penalty, and Contractor shall pay them to Owner without limiting Owner's right to terminate this agreement for default as provided elsewhere herein.

2.9.B The Armory Arch Stucco and Curtainwall Replacement (U23080R1) project impacts University operations such as project management, commissioning and inspection, contract management, and student instruction that cannot be interrupted beyond the substantial completion date. The Armory is used by 30 plus Campus Units including ROTC, Marine Corp, Global Studies, Informatics, and General Assignment Classrooms. Due to construction activity certain areas will need to be vacated temporarily, while other spaces will be vacated for the duration of the project. Construction activity after anticipated Substantial Completion will result in extending the vacated spaces for the Spring Semester adding expense and major disruption.

2.9.C When Owner reasonably believes that Substantial Completion will be inexcusably delayed, Owner shall be entitled, but not required, to withhold from any amounts otherwise due Contractor an amount then believed by Owner to be adequate to recover liquidated damages applicable to such delays. If and when Contractor overcomes Contractor Delay for which Owner has withheld payment and Owner reasonably believes that there has been or will be no other event of Contractor Delay for which Owner would be entitled to withhold from amounts otherwise due Contractor, Owner shall promptly release to Contractor those funds withheld, in anticipation of liquidated damages.

2.10 Vendor Registration. The awarded low, responsive and responsible Bidder will be required to register with the Owner's Vendor Services Application and will be required to ensure that all Bidders' subcontractors, vendors, and suppliers to be included on its Schedule of Values as identified in document 00 70 00 'General Conditions' are also registered in the Owner's Vendor Services Application. The vendor registration module of the Vendor Services Application can be accessed at:

<https://appserv6.admin.uillinois.edu/VendorRegistration/open/VendorSearch.jsp>

2.11.A This project has diversity goals for participation by BEP certified owned businesses as bidders, subcontractors or suppliers in accordance with the Business Enterprise for Minorities, Women, and Persons with Disabilities Act as defined in Document 00 20 00.

The goals for this project are as follows ("N/A" in "Combined Goal" column means split goals are in effect and "N/A" in "Split Goals" column means combined goals are in effect for each specific division of work):
